

The HOPE Fund was a special relief initiative to help First Stage endure the financial effects related to COVID-19 during our 2020/21 season.

First Stage is only as strong as our [talented team of artistic, administrative and teaching staffs](#). Donations to this fund supported these individuals who provide HOPE for thousands of young people and families and make it possible for us to continue to transform lives through theater.

We are grateful for all of these donors who helped us raise more than \$300,000 last season, including a generous match from the Molitor Foundation.
